

Largest Gifts from Canadian Charities to other Qualified Donees in 2012

By Mark Blumberg (January 3, 2014)

Canadian charities, depending on their objects can carry out charitable activities in three different ways. Some do all three.

- 1) A registered charity can conduct charitable activities using staff and volunteers.
- 2) A registered charity can work with an intermediary who is not a qualified donee as long as it has “direction and control” over its funds as set out in CRA’s two Guidances on the subject (at <http://bit.ly/ybUGAB>)
- 3) A registered charity can make a gift to a qualified donee. For a list of qualified donees see: <http://www.cra-arc.gc.ca/chrts-gvng/qlfd-dns/qd-lstngs/menu-eng.html>

We recently reviewed the T3010 information for 2012. The database was prepared by the Charities Directorate of CRA in October 2013 and covers about 82,500 charities of the approximately 86,000 Canadian registered charities and their 2012 T3010 returns.

Here is a list of all gifts over \$500,000 from the 2012 T3010 Registered Charity Information Returns.

Please review my caveats at the end about the reliability and usage of T3010 information.

Limitations and Caveats

There are a number of cautions in dealing with the information from the T3010. You can access on the CRA website directly information on each Canadian registered charity at:

<http://www.cra-arc.gc.ca/charities/>

www.globalphilanthropy.ca

As well, Imagine Canada has created a website, with funding from the CRA, which utilizes T3010 and other information at www.charityfocus.ca This website is well worth visiting.

We have placed various statistical information from charities and CRA on our website at:

http://www.globalphilanthropy.ca/index.php/blog/category/canadian_charity_statistics.com

All information in this note is provided “as is”.

- 1) The data in this note is based on the 2012 T3010 Registered Charity Information Return filings. Although all charities are supposed to file their T3010 within 6 months of their fiscal year end, some registered charities file their return late. In some cases they do not file at all and then will lose their charitable status eventually. Depending on the dataset from CRA not every charity may have filed their T3010 or CRA may have received the T3010 but not yet inputted it.
- 2) Registered charities complete the T3010 and one person signs the form. The T3010 information is not independently verified by CRA when it is posted on the CRA site or placed in the CRA database.
- 3) Although an important legal document, the T3010 is often completed by volunteers or others who may have little understanding of the nuances of the Income Tax Act, who may have limited language skills, and who may not have easy access to the correct information and are often in a hurry to file the form to avoid deregistration. In the case of larger institutions who would generally be those who are hiring people with higher salaries the likelihood is greater than the average that the information will be accurately prepared by the institution and its accountants or finance staff. It is a good idea especially for larger charities for different parts of the charity to review the T3010 closely such as finance, program staff, fundraising etc. although sometimes this does not happen.
- 4) The T3010s are filed with CRA and in many cases needs to be coded by hand at CRA which can also introduce mistakes. Only a small number of T3010s have 2D bar code technology which will eliminate most processing errors on CRA’s part. Canadian charities still cannot electronically file the T3010.

www.globalphilanthropy.ca

- 5) In some cases those completing the T3010 for a charity are deliberately deceptive. For example, an organization knows that it has substantial fundraising or political expenses but chooses to put them under charitable etc. Or an organization claims pharmaceuticals that it can purchase for \$50,000 are really worth \$50 million.
- 6) Don't rely on any of this information without checking with the charity and appropriate due diligence as required.
- 7) The T3010 is a tax form completed according to guidance provided by the CRA in a Guide ([T-4033](#)) and also various other CRA guidances and policies. The information inputted may not conform to Generally Accepted Accounting Principles (GAAP) and many not match what is in a financial statement. You can obtain copies of financial statements, whether audited or not, on any registered charity by requesting the financial statements from CRA. These financial statements are filed with CRA, but not placed on the CRA website, and they sometimes add further important information.
- 8) The T3010 asks certain questions. Many important questions [are not asked on the T3010](#). Furthermore and most shockingly [CRA is prohibited from releasing any information on the approximately 80,000 – 100,000 non-profits that are not registered charities and that file the T1044 Non-Profit Information Return](#).
- 9) Relying on the T3010 to make decisions on whether a charity is efficient, effective, or worthwhile to support is prone to failure. We have established a website at www.smartgiving.ca which discusses in detail questions donors may want to ask before donating to charity. Also we have prepared an article on [how much should a charity spend on overhead](#).

This analysis was prepared as part of the Sean Blumberg Transparency Project.

Mark Blumberg is a lawyer at Blumberg Segal LLP in Toronto, Ontario. He works almost exclusively in the area of non-profit and charity law. To find out more about legal services that Blumberg provides to charities and non-profits please visit www.canadiancharitylaw.ca or www.globalphilanthropy.ca
