

Which Canadian Registered Charities Received the Most Money from Provincial Governments in 2018?

By Mark Blumberg, Henri Pasha (June 26, 2020)

We recently reviewed the T3010 information for 2018. The database was prepared by the Charities Directorate of CRA in February 2020 and covers about 84,270 charities (which is over 98% of Canadian registered charities) and their 2018 T3010 returns.

We looked at government funding and specifically which Canadian registered charities received the most funds from provincial governments. Most government funding is from the provincial level of government.

Please review my caveats at the end about the reliability and usage of T3010 information.

Limitations and Caveats

There are a number of cautions in dealing with the information from the T3010. You can access on the CRA website directly information on each Canadian registered charity at:

<https://www.canada.ca/en/services/taxes/charities.html>

You can also find out more about registered charities on our CharityData.ca website.

Limitations and Caveats

- 1) The data in this note is based on the T3010 Registered Charity Information Return filings for charities with fiscal year ends in 2018. Although all charities are supposed to file their T3010 within 6 months of their fiscal year-end, some registered charities file their return late. In some cases, they do not file at all and then will lose their charitable status eventually. Depending on the dataset from CRA not every charity may have filed their T3010 or CRA may have received the T3010 but not yet inputted it.
- 2) Registered charities complete the T3010 and one person signs the form. The T3010 information is not independently verified by CRA when it is received by CRA or placed in the CRA database and available to the public.
- 3) Although an important legal document, the T3010 is often completed by volunteers or others who may have little understanding of the nuances of the *Income Tax Act*(Canada), who may have limited language skills, and who may not have easy access to the correct information and are often in a hurry to file the form to avoid concerns about deregistration. In the case of larger institutions, they may have accountants or finance staff and the form may, or may not, be more accurate. However, with larger charities when mistakes are made, they can sometimes be very large mistakes. It is a good idea especially for larger charities for different parts of the charity to review the T3010 closely such as finance, program staff, fundraising etc. as well as their legal and accounting advisors, although sometimes this does not happen.
- 4) The T3010s are filed with CRA and in many cases need to be coded by hand at CRA which can also introduce mistakes. In 2019 CRA allowed registered charities to file online but still few are using this facility. Before 2019 only a small number of T3010s have been filed with 2D bar code technology which eliminates most processing errors on CRA's part.

- 5) In some cases, those completing the T3010 for a charity are deliberately deceptive. For example, an organization knows that it has substantial fundraising or administrative expenses but chooses to put them under charitable etc. Or an organization claims pharmaceuticals that it can purchase for \$50,000 are really worth \$50 million.
- 6) Don't rely on any of this information without checking with the charity and appropriate due diligence as required.
- 7) The T3010 is a tax form completed according to guidance provided by the CRA in a Guide ([T-4033](#)) and also various other CRA guidances and policies. The information inputted may not conform to Generally Accepted Accounting Principles (GAAP) and may not match what is in a charity's financial statement which should be prepared according to GAAP. You can obtain copies of financial statements, whether audited or not, on any registered charity by requesting the financial statements from CRA. These financial statements are filed with CRA, but not placed on the CRA website, and they sometimes add further important information. As well for Federal corporations, you can obtain the financial statements from soliciting corporations if they are filed with Corporations Canada.
- 8) The T3010 asks certain questions. Many important questions [are not asked on the T3010](#). Furthermore and most shockingly, [CRA is prohibited from releasing any information on the approximately 80,000 – 100,000 non-profits that are not registered charities and may of them file the T1044 Non-Profit Information Return](#).
- 9) Relying on the T3010 to make decisions on whether a charity is efficient, effective, or worthwhile to support is prone to failure. We have established a website at www.smartgiving.ca which discusses in detail questions donors may want to ask before donating to charity. Also we have prepared an article on [how much should a charity spend on overhead](#). As well Blumbergs has the CharityData.ca website with 16 years information on each registered charity, if it has been around that long.

This analysis was prepared as part of the Sean Blumberg Transparency Project.

Mark Blumberg is a lawyer at Blumberg Segal LLP in Toronto, Ontario. He works almost exclusively in the area of non-profit and charity law. Henri Pasha is a summer student working at Blumbergs. To find out more about legal services that Blumbergs provides to charities and non-profits please visit www.canadiancharitylaw.ca
